WATER FUN UNLIMITED

HIGH SPEED

WATERSLIDE PARK

Ready, steady, go! AREA 47's thrilling waterslide park is one of the most spectacular hot spots of the camp's Water AREA. Five crazy water slides and one cannon ball offer unlimited fun for fans of high-speed action and families alike. Adrenaline junkies will be fond of the steep and curvy speed slides whereas the younger ones will enjoy the smoothly winding kids' tubes. Please note the individual age limits.

CANNONBALL 13+

Be a human cannon ball. Three...two...one...shoot!

TWISTER 9+

Families will love our 140m long Twister slide.

FREEFALL 15+

Daredevils are welcome on Europe's fastest water slide. We do not recommend women to use this slide.

KAMIKAZE 13+

Cry if you can...

WAVE 8+

Fun for small and big children alike.

KIDS SLIDE 4+

Meeting point for all kiddies.

Use of the water ramp is included in the entry price for the Water AREA!

FREESTYLE WATER RAMP 16+

Is it a bird? No, it's a snowboarder! A free skier! Adrenaline junkies, who want to develop their jump skills, can try to land a creative stunt into the wet on skis or a snowboard when shooting down the water ramp.

We have tubes, helmets, wetsuits and buoyancy aids that can be used free of charge. We don't however lend skis or snowboards, these you need to bring yourself. Jumping with skis/snowboards is only allowed if you have experience or for beginners as part of an organised course/training session with a qualified trainer.

Please note the rules of the Freestyle Water Ramp:

- The AREA 47 Freestyle Water Ramp is an extreme Sport facility.
- Use of the ramp is only for those of and above 16 years of age and of sporty stature.
- Only under the instruction and supervision of a qualified trainer can under 16's use the ramp.
- Unauthorised entry to the ramp is forbidden.
- Without supervision of an AREA 47 lifeguard is use of the ramp forbidden.
- Helmets, wetsuits and buoyancy aids must be worn.
- Use of the ramp can be dangerous!

WHAT GOES UP MUST COME DOWN

BLOBBING 12+

Blobbering sounds harmless, it is however one of the biggest adrenaline rushes you can have over the water. This is how it works:

On the water floats a Blob, a huge inflated rubber tube. The „Blobber“ sits on one end of the Blob, then the „Jumper“ jumps from a higher platform and lands on the other end of the Blob, catapulting the „Blobber“ metre high in the air and then landing in the water.

AREA 47 offers barefoot-kickers and players of outdoor fun sports the best location west of Copacabana Beach. Fans of tipping and bumping can play under top conditions on the beach volleyball courts.

DIVING PLATFORM

For those who always wanted to know what it feels like to enter the water at a speed of 90 km/h – welcome to AREA 47! Of course, YOU don't have to jump off the breathtaking 27 metre diving platform. This height is reserved for professionals only and restricted to training sessions, show acts and competitions.

How about jumping off the 8 metre mark for a start? After all, this equals to the height of a nice single-family house... Our guests can jump off the diving platform from 1 to 10 metres. Please note that the platform from 10 to 27 metres is closed to the public.

WATER AREA

WATER FUN UNLIMITED

A swimming lake, a thrilling waterslide park, a diving platform, beach volleyball and beach soccer courts – in its water world, AREA 47 presents what is probably the sportiest 20.000 sqm you'll ever witness. More spectacular moves can be pulled off at the boulder face suspended above water or during a balancing act on the "Slackline". Adrenaline junkies can try to land a creative stunt into the water on a speed tube when shooting down the water ramp.

The swimming lake and sport facilities are supervised by state-examined lifeguards/instructors. Please note that our swimming lake does not have a shallow and/or secure area for non-swimmers and small children. All guests have to follow the rules and safety instructions of the extreme sport facilities.

Of course, all visitors and gourmets have free access to our Lakeside Restaurant.
